

End-to-End Testing Checklist

Every entity in creation order · required (*) vs optional fields · dependencies · sample seed values

How to use this document. Walk the steps top to bottom — each step depends on the ones above it. A ***** marks a field the form requires before it will save. "Depends on" lists entities that must already exist. Field names are the actual payload keys sent to the API. Sample values are safe seed data for a full dry run.

Login first: a user whose role has the needed `*.view` / `*.create` permissions (or **Super Admin**, which bypasses all checks). Note: the Order Confirmation and Export Document forms reuse other modules' dropdown endpoints, so the tester also needs `inquiry.create` / buyer lookups.

1Company

POST /administration/companies

Depends on: nothing — this is the root tenant.

FIELD	REQ	SAMPLE VALUE
code	*	SM
name	*	SM Enterprises
short_name	—	SME
gst_in	—	27ABCDE1234F1Z5
phone	—	+91 98200 00000
email	—	ops@sme.example
address	—	12 Export House, Mumbai
is_active	—	1

2Masters (reference data)

/masters/*

Depends on: Company (most masters may be left "Shared" by leaving company blank). Create in the order below — later masters reference earlier ones.

2a. Category POST /masters/categories

FIELD	REQ	SAMPLE
code	auto	Auto (leave)
name	*	Woven Fabric
format_ids[]	—	[(select after step 2b)]
status	—	active

2b. Order Format POST /masters/formats

FIELD	REQ	SAMPLE
name	*	Standard Fabric OC
description	—	Woven fabric contract
allow_multiple_colours	—	true
units (list)	—	MTR, PCS
columns	—	Design No, Colour, Qty, Rate
delivery_details / packing_details	—	free text

2c. UOM POST /masters/uoms

FIELD	REQ	SAMPLE
code	*	MTR
name	*	Metre
decimal_places	—	2
status	—	active

2d. Material Type POST /masters/material-types

FIELD	REQ	SAMPLE
company_id	—	(blank = shared)
code	*	FAB
name	*	Fabric
status	—	active

2e. Product POST /masters/products

Depends on: Category, Material Type, UOM (and optionally Price Band, GST Rate).

FIELD	REQ	SAMPLE
category_id	*	Woven Fabric
material_type_id	*	Fabric
uom_id	*	MTR
item_group_code	*	WVN01 (≤5 chars, unique)
name	*	Cotton Poplin 44"
name_on_export_document	—	Cotton Poplin Fabric
unit_po / unit_export	—	MTR / MTR
hsn_code	—	52081190
fabric_width_inch / fabric_length_mtr	—	44 / 100
incentives (drawback/rosctl/rodtep)	—	disabled
company_id	—	(blank = shared)

2f. Buyer POST /masters/buyers

Depends on: Category (Agent, Currency, Incoterm, Port, Payment Term optional).

FIELD	REQ	SAMPLE
company_name	*	Al Nahda Trading LLC
category_ids[]	*	[Woven Fabric]
is_overseas	—	true
country_id / port_id / incoterm_id	—	UAE / Jebel Ali / FOB
currency_id / payment_term_id	—	USD / 30 days
agent_id + commission_percent	—	(optional)
advance_percent + sight_percent	—	30 + 70 (must total 100)
gst_number / pan_number	—	—

2g. Supplier POST /masters/suppliers

FIELD	REQ	SAMPLE
display_code	*	SUP01 (≤5 chars, unique)
party_type	*	supplier jobber both
company_name	*	Surat Mills Pvt Ltd
category_ids[]	—	[Woven Fabric]
supplier_type_id	—	(from lookup)
credit_days	—	45
gst_number / pan_number	—	24AAAAA0000A1Z5

2h. Agent · FOB Value · Brand (smaller masters)

ENTITY	KEY FIELDS	SAMPLE
Agent	name*, agent_type, display_code, commissions[]	Gulf Agents, supplier, AGT1, 2%
FOB Value	name*, status	FOB Standard
Brand	company_id, code*, name*	SM / NORTHWIND

3 Inquiry (optional)

POST /inquiries

Depends on: Buyer, Category, Order Format, Currency. Convert a confirmed inquiry into an OC, or skip straight to step 4.

FIELD	REQ	SAMPLE
company_id	*	SM Enterprises
buyer_id	*	Al Nahda Trading LLC
category_id / document_format_id	*	Woven Fabric / Standard Fabric OC
currency_id	*	USD
inquiry_date / exchange_rate	—	today / 83.0
items[] (product, sizes, costing)	—	Cotton Poplin, 5000 MTR

4 Order Confirmation (the hub)

POST /sales/order-confirmations

Depends on: Buyer, Category, Order Format, Currency (Brand, Agent optional). **Save then mark "Buyer Confirmed"** — POs need status = confirmed.

FIELD	REQ	SAMPLE
company_id	*	SM Enterprises
buyer_id	*	Al Nahda Trading LLC
category_id	*	Woven Fabric
document_format_id	*	Standard Fabric OC
currency_id	*	USD
oc_date	*	today
mode	—	oc (or "direct")
brand_id / agent_id	—	NORTHWIND / Gulf Agents
incoterm / ship_method / pol / pod	—	FOB / Sea / Nhava Sheva / Jebel Ali
items[]	—	Cotton Poplin · Surat Mills · 5000 MTR · \$1.20
status	set	confirmed

5 Purchase Order

POST /procurement/purchase-orders

Depends on: **confirmed** Order Confirmation + Supplier. Company & Buyer are inherited from the OC. Mark status = raised.

FIELD	REQ	SAMPLE
order_confirmation_id	*	the confirmed OC
supplier_id	*	Surat Mills Pvt Ltd
po_date	*	today
dispatch_date	—	+14 days
items[] (product, qty, rate)	*	Cotton Poplin · 5000 MTR · ₹95
delivery_details / packing_details	—	(prefilled from OC)

6 GRN / Inward Entry

POST /procurement/inward-entries

Depends on: a PO with status raised/partial. Posting creates **Lots**. Company inherited from PO.

FIELD	REQ	SAMPLE
-------	-----	--------

purchase_order_id	*	the raised PO
inward_date	*	today
challan_no / challan_date	—	CH-1001 / today
items[].received_qty	*	5000 (≤ remaining balance)

7 Quality Control (QC)

POST /quality-control

Depends on: a Lot from the GRN. accepted + rejected must equal inspected.

FIELD	REQ	SAMPLE
lot_id	*	lot from GRN
inspection_date	*	today
inspected_quantity	*	5000
accepted_quantity	*	4900
rejected_quantity	*	100
return_quantity	—	100
shade / edge_to_edge_shade / weaving_defects	—	OK / OK / none

7+ Supplier Return & Debit Note (optional)

/quality · /finance/debit-notes

Depends on: a completed QC inspection with rejected qty.

ENTITY	KEY FIELDS	SAMPLE
Supplier Return	return_date*, quantity*, reason	today · 100 · shade fail
Debit Note	debit_note_date*, quantity*, amount*, reason	today · 100 · ₹9500 · rejects

8 Stock Location

POST /inventory/locations

Depends on: Company. Create before material issue / stock dispatch. Company is fixed after creation.

FIELD	REQ	SAMPLE
company_id	*	SM Enterprises
code	*	WH1
name	*	Main Warehouse
status	—	active

9 Material Issue

POST /production/material-issues

Depends on: QC-accepted Lots in stock + a Location. Reduces stock on posting.

FIELD	REQ	SAMPLE
company_id	*	SM Enterprises
location_id	*	Main Warehouse
issue_date	*	today
receiver_user_id / supervisor_user_id / foreman_user_id	—	(users)
items[] (lot_id, quantity)	*	lot · 4900 MTR

10 Processing

/production/processing

Depends on: issued material. Produces finished-production Lots (source_type = production) with a processing_no.

FIELD	REQ	SAMPLE
-------	-----	--------

processing_no	auto	auto
issued lots consumed	*	lot from step 9
finished output qty	*	4900 PCS

11

Barcode

POST /barcodes

Depends on: a received/finished Lot with no active barcode.

FIELD	REQ	SAMPLE
lot_id	*	finished lot
company_id	*	SM Enterprises

12 Dispatch

POST /dispatches

STOCK: finished lots allocated to a confirmed OC (reduces stock). DIRECT: PO lines shipped by the mill (no stock).

FIELD	REQ	SAMPLE
dispatch_type	*	STOCK_DISPATCH
company_id	*	SM Enterprises
order_confirmation_id (STOCK)	*	the confirmed OC
purchase_order_id (DIRECT)	*	(DIRECT only)
location_id (STOCK)	*	Main Warehouse
dispatch_date	*	today
buyer_id / destination_name / destination_address	—	Al Nahda / Dubai
transporter / vehicle_no / document_reference	—	ABC Logistics / MH01AB1234 / LR-55
items[] (order item + lot, or PO line, qty)	*	4900 PCS

13 Export — Packing List & Document

/export/packing · POST /export-documents

Depends on: dispatched goods, Buyer, Currency. Then generate shipping PDFs.

FIELD (EXPORT DOCUMENT)	REQ	SAMPLE
invoice_no / invoice_date	—	INV/EXP/001 / today
incoterm_id / shipment_method_id	—	FOB / Sea
port_of_loading_id / port_of_discharge_id	—	Nhava Sheva / Jebel Ali
consignee_name / consignee_address	—	Al Nahda / Dubai
vessel_flight_no / bl_no / booking_no	—	MV Ocean / BL123 / BK99
gross_weight / net_weight / total_cartons	—	1200 / 1100 / 40
cartons[] (carton_no, weights, lines)	*	CTN-01 · Cotton Poplin · 125 PCS

14 Finance — Proforma & Invoice

/finance/proforma-invoices · /finance/invoices

Invoice depends on: **posted dispatch lines** of an OC (or one direct dispatch). Price comes from the OC item.

ENTITY / FIELD	REQ	SAMPLE
Proforma Invoice	pi_date*, valid_until, reference, payment_terms	today · +30d
Invoice · invoice_date	*	today
Invoice · source (order/dispatch)	*	the OC / dispatch
Invoice · proforma_invoice_id	—	(link the PI)
Invoice · items[] (dispatch_item_id, qty)	*	4900 (≤ dispatched – invoiced)

15 Finance — receipts, payments, commission

/finance/*

ENTITY	PURPOSE	DEPENDS ON
Buyer Receipt	Record buyer payment against invoice	Invoice
Purchase Bill	Supplier bill against PO/GRN	PO / GRN
Supplier Payment	Pay a supplier bill	Purchase Bill

Agent Commission	Commission on OC/buyer	Agent, OC
------------------	------------------------	-----------

Minimum happy-path seed (fastest full run)

Company → Category → Order Format → UOM → Material Type → Product → Buyer → Supplier → **Order Confirmation (confirm)** → Purchase Order (raise) → GRN → QC (accept) → Location → Material Issue → Processing → Barcode → **Stock Dispatch** → Packing → Export Document → Proforma Invoice → **Invoice**. That single chain exercises every module end to end.
